## Improvements In Community Rooms Sought

A group of Ballardvale residents appeared at the meeting of the board of selectmen Monday night to request several improvements in the town's building in the Vale in which the community rooms are located.

They discussed the maintenance, repair, use and general upkeep of the building and the installation of a central heating system.

The committee included James Butler, Albert Warner, Robert Read, Arnold Schofield, Mrs. Ralph Sharpe, Samuel Mucci, Bart Smalley, George Grant, Joseph Serio, P. W. Moody and the Rev. Paul E. Callahan.

The selectmen took the request under advisement and it is expected that estimates of the several improvements will be obtained and eventually included in a special article to be presented in the warrant at the next town meeting.

M. Aurora and Ludger Corriveau of Canterbury st. were granted a Sunday store license for the Village food and variety shop which they have recently opened at 54 Haverhill st.

Fire Chief C. Edward Buchan was appointed fire warden for the ensuing year, subject to the approval of the state district fire warden.

## New Blood Center For Civil Defense

The state committee of the blood section for civil defense has designated sites for establishment of one or more bleeding centers in cities and towns with a population that can furnish sufficient donors to maintain such centers.

Christ church officials have generously offered the facilities of the church for this purpose.

The personnel required to operate such a center totals 116 persons, viz; 2 doctors, 6 phlebotomists, 12 clerks, 72 blood agitators, 15 drivers, 3 auxiliary police and 6 custodians.

Anyone wishing to volunteer for any of these positions may obtain applications at the civil defense office.

State funds have been made available for the purchase of equipment to be stockpiled at the center as soon as authorities receive a report giving the location, and the names and addresses of the personnel.

Many supplies will be provided by the state including 6000 plastic blood bottles. Supplies required from the town include clerical equipment, portable wash stands, several 5-gallon water cans, 20 tables 7 feet by 2 1/2 feet by 30 inches high, emergency lights with

## Seek New Engine For Fire Dept.

Request for a new 1000-gallon pumper for the fire department will be made in a special article to be presented in the warrant for the annual town meeting next March.

The new piece would replace the present Engine 3, a 1928 American LaFrance model equipped with only two-wheel brakes and which will soon have a record of being 24 years in the service. It requires frequent attention. Last fall the motor was overhauled by the firemen and had new pistons installed.

The old engine, in the opinion of Fire Chief C. Edward Buchan, is not reliable and not dependable. The cost of a new modern piece of apparatus to replace the old would be about \$17,000.

## 250 Mothers Ready For March On Polio

At a signal on the fire whistle at 7 p.m. Thursday, Jan. 31, 250 mothers of Andover will start their "March on Polio" drive for the 1952 campaign. All PTA groups in the town are co-operating and every section will be covered. Those in the outlying districts will canvass by auto. persons who wish to contribute to the polio fund are asked to have their porch lights on as a signal for the solicitors.

## One Voting Place For Primaries

In preparation for the presidential primaries Apr. 29 the board of selectmen Monday night voted to open one central voting place in town instead of all six precinct voting places.

The location will be the Square & Compass club hall on Elm street, the old voting place for precinct 2. The polls that day will be open from 7 a.m. to 7 p.m.

To provide the personnel for handling the vote it was decided to invite the wardens and clerks from each of the six voting precincts to represent their districts.

## Turnabout Clubs Elect Officers

Richard G. Whipple of North Andover was elected president of the National Turnabout Class Assn., at the annual meeting held last Sunday in Ipswich. Mrs. Byron Smith of Andover is the new treasurer.

The racing class reports that over 200 boats in 20 fleets from Maine, Massachusetts, Rhode Island and Connecticut, will be ready to race this summer with 33 boats registered to start racing on Lake Quannapowitt, Wakefield, Apr. 1.

Many Andover residents own turnabouts which will be used by the Schools' club for racing.

## Two Women Felled By Auto

Hit by an automobile as they were crossing Main street near Harding street Wednesday morning, Mrs. Margaret Thorburn, 54, and Mrs. Marion Moore, 47, both of S. Mam st., were taken to the Lawrence General hospital and held for observation and treatment.

The accident happened about 6:40 a.m. Police report that there was a slight fog at the time and that John W. Fairburn of County rd. operator of the auto, reported he did not see the two women until he was about 15 feet from them. He swerved to the right but was unable to avoid hitting them.

The fire department ambulance responded with Firemen James Deyermund, Charles Gray and Timothy Madden, and took both women to the hospital where X-rays were taken of their backs and spines. They were held for further observation. Their injuries were not considered serious.

Tax collections for 1951 surpassed all previous records here when a total of \$970,380.25 was recorded at the office of Tax Collector James P. Christie at the close of business Dec. 31.

New tax collection records have been established in each of the several preceding years. The total as of Dec. 31 in 1950 was \$834,178.98. This topped the record of the year before when \$795,705.19 was collected for 1949. Tax collections have been on a steady climb in recent years. Ten years ago the total for Dec. 31, 1941 was \$542,501.96.

These collections represent the sums collected for real estate, personal, poll, motor vehicle taxes and special assessments.

The percentage of real estate and personal tax collections for 1951 was 95% as of Dec. 31. For 1950 it was 94%.

## Start 1952 Drive For Visiting Nurse

The house to house canvass for the Visiting Nurse Assn. for Andover, Inc., started Monday in all sections of the town to collect funds for the continuation of the nursing service given here in the past several years.

Meanwhile the special gifts, organizations, and merchants committees, who started their canvass a week earlier, have made early reports which are most encouraging.

The house to house canvass will continue daily until Jan. 31. Precinct majors and captains will be able later this week to make returns each day at the office of the visiting nurse, 8 Elm sq.

Arrangements have been made to have a clerk on duty there from 10 a.m. to 1 p.m., and from 2 to 3

## Meets Quota For Bedford Hospital

Mrs. Joseph Rand, production and supply service chairman for Andover Red Cross, reports that the chapter has met its special supply quota for Bedford hospital for the month of January. Although the Gray Ladies and motor corps workers rarely make their weekly all-day visit to Bedford without carrying along supplies of one sort or another, this large quota is levied upon each of the co-operating chapters in turn.

Making generous response to Mrs. Rand's appeal for assistance were the following Andover organizations: Women's auxiliary, Christ church; Friendly Guild, Christ church; Ladies' Benevolent society, Phillips academy; V. F. W. auxiliary 2128; Philathea class, Baptist church; Women's union, Baptist church; Ladies auxiliary, 42, Clan Johnston; West Parish Junior Women's union; Margaret Slattery class, Free church; Tuesday club.

Besides the gifts of money to be used for this project, the following donated requested articles: Tuesday club; Daniel Hartigan, Mrs. C. Leon Houghton, and a group of undesignated friends.

Four generations of the MacDonald family are represented in this group photo taken recently. In back is Daniel MacDonald of Brechin, Angus, Scotland, who is 93 years old; and left to right, Donald MacDonald Sr., 2 Upland rd., David MacDonald Jr., and Burt Anderson MacDonald.

### Danvers 34, Punchard 32

In a nip-and-tuck battle that was in doubt up to the closing minutes of play Danvers edged Punchard on the home court last Friday night 34 to 32.

Roy Dirks, Danvers guard, paced the visitors throughout the game in which he totalled 21 points. Capt. Jim Dolan of Punchard kept his team in the thick of the fight with his 16 points but the Blue and Gold could not overcome the visitors' surge in the final period.

The Punchard J.V. team raced off to a good start in its game against the Danvers J.V. and ended up a 34 to 29 victor.

in Fall Under Train

Victor Lobick, 49, of 22 Enmore st., suffered the loss of his right arm when he fell under a moving train from which he was alighting at Shawsheen Village about 9:30 p.m. Friday.

Police reported that Lobick, operator of a Boston restaurant, was returning to his home when the accident happened, severing the arm above the elbow joint.

## An Ultimatum

It was a blunt and challenging talk that Francis W. White of Andover, president of the American Woolen company gave at Lawrence last week.

Combined with the warning that the country's largest manufacturer of woolen and worsted fabrics may move all of its mills out of this area was the promise that a sincere effort would be made to give New England workers "one last chance to meet Southern competition."

He made frequent reference to the difference that higher wages paid in the North, higher taxes, higher unit costs resulting from a lower work-load, and the new synthetics have made on the New York market where southern competition can sell their products "from 30 to 50 cents a yard cheaper than we can sell them. The work that should be flowing into our plants is going to southern workers for that important reason."

He made it clear he wanted to keep the American Woolen company mills running in New England, but just as clearly said that this could be done only if the company could meet competition. They cannot meet this competition, he pointed out, "unless our workers and the labor organizations which represent them realize they are in a deadly struggle with workers who are willing to work harder."

To reduce the cost of his company's product, Mr. White said greater productivity "on the part of our machinery and the part of our workers will accomplish this vitally important unit cost reduction in our northern mills... If we want to retain our jobs and our benefits, we must from now on earn them."

He said newer and more modern machines are being introduced and "we are asking our workers and their union representatives to help us make the most effective possible use of these machines and their time so as to increase productivity."

Mr. White said that the "New England know how" in textiles is "the most powerful weapon we have at the moment" and told his audience that "we need help, not opposition, from our workers and their leaders to meet and beat our competition wherever it may be."

The head of the great company closed on a hopeful, yet challenging note, when he said "I will join you in the fight of our lives to keep our mills here. I will be at your side slugging it out as long - but only as long - as you stand beside me in this, our fight for survival as a New England textile employer."

## HERE'S TO YOUR HEALTH

### SLEEP . . .

To recover from the fatigue of life's activities, the average healthy adult spends about one-third of his time sleeping. For example, a forty year old person who sleeps eight hours a night will, if he lives to be seventy, sleep for ten of the thirty years of life left to him. Far from being a waste of time, those ten years asleep will make possible what he does during the twenty years he is awake.

Some people need more sleep than do others. Thomas Edison is said to have managed on four hours of sleep at night. Woodrow Wilson required nine or ten. Loss of sleep for a night or two can be made up, but too little sleep night after night will undermine the health of a rugged person and turn a cheerful individual into a cross, irritable one. Of all the experiments which have been made on sleep, perhaps the most valuable are the ones each individual makes on himself to find out the amount of sleep he needs in order to feel well, to do efficient work, and to keep in good humor the next day.

Johnny's cheeks were still wet with tears, but he was smiling as Spot's tail stirred in an attempted wag.

"He'll be good as new in 24 hours," the veterinarian said. "But it's a good thing you telephoned me as soon as you did."

Sometimes it's impossible to measure the value of a telephone call in dollars and cents. A single emergency call may be worth the cost of your telephone many times over. It may cure a broken heart . . . or save a human life.

Actually, the value of telephone service lies not so much in emergencies, as in everyday convenience. The convenience that brings the grocer, the druggist, the cleaner, the office, a friend or a loved one as near as your telephone.

## A BIGGER VALUE THAN EVER

In relation to the high cost of most things you buy, the average telephone bill now takes a smaller part of the family budget than it did 10 years ago. What's more, service is better, faster, more efficient.

Some people who have applied for telephone service are still without it because we lack necessary equipment. To correct this situation is one of our major projects.

Some who do have service, however, are inclined to forget or overlook the telephone's real worth. It is only to such users that reference is made here to the value of telephone service.

## Social Security Information

Although most farmers who employ regular hired help are now filing quarterly social security tax returns, the social security administration is again reminding farm operators of their responsibilities under the amended law.

Beginning Jan. 1, 1951, for the first time farm employees were included if they worked for the same employer on a full-time basis for at least 60 days during a calendar quarter and earned \$50 or more.

During the first or "qualifying" quarter no tax deductions are made but in each succeeding quarter it is necessary to withhold 1 1/2% of the worker's wages which is his contribution toward his old-age and survivors insurance account.

His employer contributes a like amount and forwards the quarterly tax return with his remittance to the collector of internal revenue.

This is due within 30 days following the quarter in which the wages were earned.

By submitting these returns promptly and correctly the farm operator will be doing his part to provide for insurance payments to the wage earner at his retirement or to his dependents in the event of the worker's death.

Many farm workers who have been employed on a full-time basis during the past summer harvest season completed their qualifying quarter by Sept. 30. For these workers the first tax deduction began on Oct. 1 if they remained in the employ of the same farmer on a full-time basis.

For those workers who have also worked in commerce or industry or

who may also be operating their own trade or business during part of the year, the social security administration wishes to remind them that all wage credits will be combined and credited to their individual social security account no matter where or when earned.
